MERIDIAN SCM#: \_\_\_\_\_

Meridian Products has produced a Special Color Match (SCM) for your approval. This SCM was matched to the swatch or finished product you supplied to Meridian Products. Meridian Products has sent you a door sample with the desired color match. Meridian will keep a control sample of this color for our records and future matching.

With wood finish being susceptible to the environment, variations in color and grain are inevitable. This will affect the final appearance of all the jobs. All color match sample doors will be void of color match after one year and all color matches older than 2 years are subject to reformulation charges.

Meridian Products requires this form to be completed and returned to your CSR before any production can begin on any order(s) that would require this color match. If the color does not meet your expectation, please explain why and how you believe we can remedy the match.
