NEWS, PRODUCT UPDATES & CURRENT INDUSTRY TRENDS | WINTER 2026

EVO-SKINNY 10 INTRODUCTION

Meridian Products is pleased to expand its Thermally Fused Laminate (TFL) portfolio with the introduction of the new **EVO-Skinny 10** door design. This profile captures the refined look of the highly popular Skinny Shaker style while delivering the color consistency and durability customers expect from a premium TFL product. EVO-Skinny 10 is launching in our in-demand **Straight Noce** and **Door Country Oak** finishes, both inspired by the clean, linear character of rift-cut white oak. To support complete cabinetry programs, matching sheet goods, edge banding, and HPL sheets are available. Additional colors are planned for release in the near future. Please contact your Account Coordinator to review door samples and learn more.

SIX NEW PAINT COLOR OPITONS

Building on last year's most popular color selections, Meridian Products has developed six new paint colors to meet evolving design preferences. As homeowners continue moving beyond traditional all-white kitchens, demand is rising for warmer, more expressive palettes. Our new standard colors—Aisla, Carson, Dalton, Grace, Mason, and Nevah—reflect this shift and offer a versatile range to complement today's interiors. We're excited to provide these additions to help you expand the color options you offer your clients.

WARMER NATURAL WOOD

Stain finishes are making a strong return to the kitchen market, with current trends shifting toward warmer, earth-toned, natural wood looks. Drawing inspiration from recent popular color matches, we have developed four new stain options: **Cognac, Latte, Mascato, and Snowball.**

These colors are now available to offer as part of our **standard stain palette.** Physical samples can be requested through your Customer Service Representative (CSR) and are also included in our updated color chip sets.

NEW LOW-SHEEN PAINT COLOR MATCHES

Building on the strong demand for our Perfect Matte TFL colors, Meridian Products has introduced new low-sheen (5%) paint color matches for accent components that complete a Perfect Matte, European-style, edge-banded kitchen. Please note that true TFL surfaces typically measure closer to 2% sheen, so some variation in sheen should be expected. Contact your account coordinator to request samples and confirm whether this solution is the right fit for your project.

NEW DOOR DESIGN

Meridian Products has created a new door design that bridges timeless craftsmanship with modern Shaker simplicity. In traditional kitchens, arched top-rail wall cabinet doors were commonly matched with square base doors. Today's Shaker style, by contrast, favors straight lines and understated profiles. The new MRP4545 door thoughtfully combines both approaches, delivering a distinctive look that feels familiar yet current. To request samples or additional details, please reach out to your Meridian Products account manager.

Photographs and renderings in this brochure are for illustration and reference only.

Actual wood and finish colors may vary due to printing process. Meridian Products always recommends ordering a sample door and/or drawer sample for accurate color selection and representation.

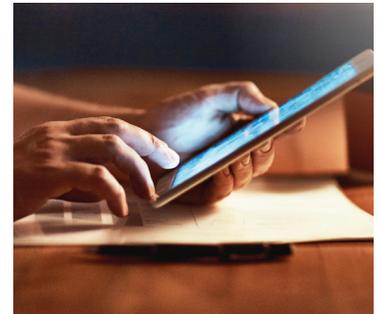

TEAM SPOTLIGHT

GET TO KNOW THE TEAM BEHIND MERIDIAN PRODUCTS

Hi! My name is **Scott Ackley**. I joined Meridian Products as a Regional Account Coordinator in July 2025. I support customers across Long Island, Connecticut, Massachusetts, Rhode Island, and the greater New England region.

I came to Meridian to deepen my industry knowledge and collaborate with fellow cabinet professionals, drawing on more than a decade of experience managing my family-owned kitchen remodeling company. I enjoy partnering with customers to grow their businesses by connecting them with practical solutions and helping them win back valuable time in their day.

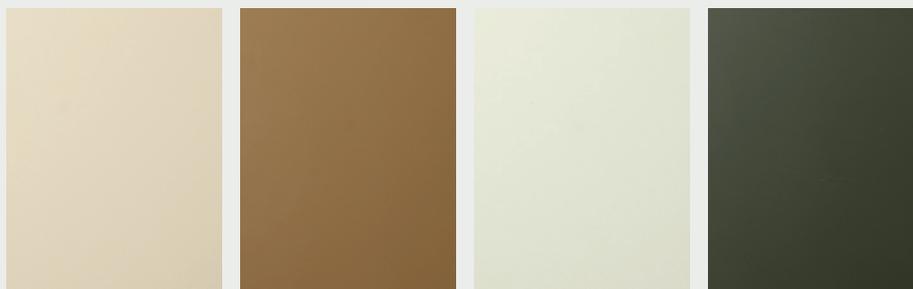

Outside of work, I spend my time practicing yoga, learning new musical instruments, and cooking delicious meals with my wife, Kim.

CROWN MOLDING

When was the last time you took a look at Meridian Products' molding offerings and pricing? If it's been a while—well, what a pity. You might be pleasantly surprised by what we're offering now (and what it costs).
